

Communists Back Roosevelt to Build Revolutionary 'Front'

BROWDER REPORT TO MOSCOW: 'WE MUST BEAT REPUBLICANS'

Through its Comintern in Moscow and its puppet organizations in the United States, Soviet Russia is taking an aggressive part in the presidential campaign in America—ON THE SIDE OF THE NEW DEAL.

The challenging assertion is based upon UNCONTRADICTIBLE DOCUMENTARY PROOF.

Part of the proof is available in speeches and "literature" of the Communist party of America. The final and conclusive portion of it has come in the form of a report in the July, 1936, issue of the "COMUNIST INTERNATIONAL," official magazine of the Third International published by the EXECUTIVE COMMITTEE OF THE COMMUNIST PARTY AT MOSCOW. It is printed in the Russian language.

Orders Obeyed

This report was furnished as a phase of the Communist activities by EARL BROWDER, executive secretary of the Communist party of America.

It is Browder's own avowal that the party chiefs in Moscow THAT ORDERS ARE BEING IMPLICITLY AND EXPLICITLY OBEYED.

Photographic facsimiles of original pages of the magazine, containing paragraphs of the report, together with corresponding translations, will be found in this issue of the Boston Evening American.

Earl Browder is, of course, the TITULAR nominee of the Communist party of America for President.

THE REAL CANDIDATE—the UNOFFICIAL, available of the Comintern—is a FRANKLIN D. ROOSEVELT.

"Hope of the Reds"

BROWDER HIMSELF IS CAMPAIGNING OBSEQUIOUSLY FOR ROOSEVELT'S RE-ELECTION.

Why should the Communist leaders, with a candidate of their own in the field, be included among "Franklin D. Roosevelt's undercurrent partisans?"

The answer is really simple. The Communist Comrades have no expectation of electing Earl Browder.

At the same time, they believe that such differentials in unemployment and industrial activity can be prolonged and aggravated to their political benefit.

They likewise believe that John L. Lewis and the miscellaneous Farmer-Laborites are playing directly into Communist hands.

They believe that Lewis' new Committee for Industrial Organization, WHICH THE MINISTERS PRESS ACTIVELY APPROVES, will wreck the "conservative" labor movement and lead at least three million unorganized workers and a group of existing labor unions, into ultra-radical ranks.

They believe that Lewis' political maneuver—the Labor's Non-Partisan League—which is supporting Roosevelt—will in four years become a tremendous factor in a Farmer-Labor Party WHICH COMMUNISTS MAY EASILY DOMINATE.

And so—their eyes are fixed on 1940 as their climactic year. Hence their strategy in this CAMPAIGN is to encourage and combine with all other radical forces, in order to bring forth, and command in THE NEXT PRESIDENTIAL ELECTION YEAR, A REVOLUTIONARY "PEOPLES FRONT"—JUST AS THEY HAVE ALREADY SUCCEEDED IN DOING IN FRANCE AND IN SPAIN.

"United Front"

THEY EXPECT TO accomplish their objective of a "Peoples Front" in 1940—PROVIDED THEY COULD CURE YOUR YEARS MORE OF THE SOCIALIST NEW DEAL.

And that is precisely why Earl Browder, the Communist nominee and HIMSELF A MEMBER OF THE COMINTERN, stood up before the members of the National Press Club at Washington, D. C., on August 26 and declared:

"The Communist Party has

NO RESERVATIONS to make on its declaration that it sees AS THE MAIN TASK FOR 1936 the defeat of London."

For obviously, as Browder will know, the defeat of London, which is so necessary to the Communists, could be encompassed only by the reelection of Roosevelt.

In his report as published in the "Comunist International," Browder informed his overlords in Moscow:

1—that, IN OBEDIENCE TO THE ORDERS OF THE "COMINTERN," the Communist program for the formation of a Farmer-Labor Party is being resolutely carried out;

2—that, in pursuance of this program, the "Communist Party has moderated for the time being its revolutionary propaganda so as to align itself more quietly with other and more widely left-wing groups; and

3—that, accordingly, the Communist Party has agreed to maintain in the 1936 campaign a "PEOPLES FRONT WITH THE WORKERS SUPPORTING ROOSEVELT."

The report is entitled:

"Farmer - Labor Party, The Peoples Front in America."

Its introductory paragraphs read as follows:

"The program for creating a Peoples Front against reaction, Fascism and war, which was presented by Comrade Dimitroff in his epoch-making report at the Third International Congress of the Comintern, IS BEING REALIZED ALSO IN THE UNITED STATES."

Red Strategy

"There this program is being carried out by uniting mass organizations of workers, who, until now, have not played any independent political part, in a federation in which the Communist and the Socialist Parties, that do not have any great number of members, will also be included—ALL FOR THE PURPOSE OF CREATING A FARMER-LABOR PARTY."

Comrade Dimitroff said in his report at the Seventh Congress of the Comintern:

"It is undeniably obvious that the interests of the American proletariat demand an immediate separation of their forces from the capitalist parties. It is absolutely necessary for them to find ways and appropriate means in order to prevent the large masses of dissatisfied workers from being taken hold of by the Fascists. And it ought to be stated here: creation of a mass party of workers—

"The Farmer-Labor Party—may be such a suitable means under American conditions."

"Such a party would be a special form of People's Mass Front in America, which must be erected against the parties of trusts and banks, as well as against growing Fascism."

"Such a party will naturally not be Socialist or Communist."

"But it must be an anti-Fascist party and MUST BE AN ANTI-COMMUNIST PARTY."

"To help the working masses to free their ties with the bourgeois parties and to attain political independence by means of such a Farmer-Labor Party—that's what the Communist Party of the United States regards as its main problem in this field."

Continuing his report to his Moscow masters, Browder explains in detail how Roosevelt supporters and Farmer-Labor groups are being utilized by the Communists to effect their revolutionary "Peoples Front."

The report to Moscow describes London as a "provincial

Master and Man

Governor" supported by all the forces of "political reaction."

Roosevelt is represented, on the other hand, as wavering between the right and the left, but as having made "some concessions" in the "people's interests" under the "severe pressure of the masses."

William Green and the Executive Council of the American Federation of Labor are denounced as the "extreme right wing of the organized labor movement," occupying a "damnable reactionary position," which "by no means reflects the opinion of the majority of organized labor."

Here, in the report to Moscow, John L. Lewis' two movements—his Committee for Industrial Organization and Labor's Non-Partisan League—receive the Communist accolade as part of the "Peoples Front" movement toward 1940. The report says:

"The position of the labor masses, organized in the American Federation of Labor, with all its strong and weak points, is rather represented by the leaders of the progressive group—John Lewis, Sidney Hillman and David Dubinsky—than by the official leadership of the American Federation of Labor."

"This group sounds the alarm, warns against the threats of Fascism and war, threatens personified by the Republican Party—and STRIVES FOR THE ELECTION OF PRESIDENT ROOSEVELT with the assistance of a new organization, the 'Non-Partisan Labor League' which, ACCORDING TO THEIR OPINION, may subsequently lead to the creation of a FARMER-LABOR PARTY."

"At the same time, the movement for a Farmer-Labor Party is growing fast. 'At certain places it is already existing, or are in the process of being born, hundreds of organizations of the Farmer-Labor Party."

"In some States there are already strong organizations of the Farmer-Labor Party, who fight for certain Congressmen, in the movement of the Democratic Party for the State Legislatures."

"Mass movements, developments, the old bourgeois parties, try to separate from them and join the movement for the Farmer-Labor Party."

"This is especially noticeable in the California movement, 'EPIC,' which comprises a considerable part, not the majority, of the members of the Democratic Party in the Washington movement, 'Commonwealth,' with a similar program, in the movement of the 'Non-Partisan League' in North Dakota where the League PREVIOUSLY ex-

Front cover of the July issue of the "Comunist International," official magazine of the Comintern, in which Earl Browder's report was published.

exercised a dominating influence in the Republican Party of that State.

"The movement is growing by leaps and bounds in the trade unions, but in the national scope still concentrates exclusively on Roosevelt due to the influence of the 'Non-Partisan Labor League'."

"The matter of unifying the movement in favor of the Farmer-Labor Party as to national scope met serious obstacles in 1936, as among the workers and farmers there still prevailed tendencies in favor of Roosevelt."

"It is obvious that the movement is NOT YET prepared to put forth its own candidate for President against Roosevelt; such an attempt would divide the movement and retard it for a long time to come."

Red Leadership

In anticipation of 1940 the Communists were therefore glad to shepherd Labor's Non-Partisan League along toward the goal of a "Peoples Front" BY ACCEPTING ROOSEVELT as the candidate of their labor allies in 1936.

The Farmer-Labor Party, of Minnesota, then conducted by the late Governor Floyd B. Olson, helped the Communists along.

Browder's report to Moscow explains exactly how the Olson group was used by the Communists.

The Minnesota Party, says the report to Moscow—

"... offered to summon a

FARMER-LABOR BLOC MASKS 'RED' ACTIVITIES

not take on ourselves the responsibility for Roosevelt.

"BUT WE DO NOT WANT TO SEVER OUR CONNECTION WITH THE ORGANIZATION IN FAVOR OF A COMMON FRONT BECAUSE THEY FOLLOW ROOSEVELT."

"We have, to a considerable degree, common purposes and opinions, AMONG THEM THE ASPIRATION TO DEFEAT THE REACTIONARY REPUBLICAN PARTY AND ITS SUPPORTERS."

"This position OF THE COMMUNIST PARTY created the possibility of summoning a national conference consisting of delegates from every section of the Farmer-Labor Party movement. The conference was held at Chicago on May 30-31."

Browder next informs his Moscow masters as to how a working alliance was effected through the Chicago Farmer-Labor Party conference with radical labor leaders.

At the Chicago Conference, Browder's report shows the real objective of John L. Lewis' two organizations—the Committee for Industrial Organization and Labor's Non-Partisan League, both of which are supporting Roosevelt in 1936—was indicated to be a nation-wide Farmer-Labor Party in 1940, which would be THE COMMUNIST PARTY'S "PEOPLES FRONT."

Discussing a decision of the Chicago conference to constitute the Minnesota organization of the Farmer-Labor Party as a "steering committee" for the movement, the Communist report says:

"This was in conformity with what was stated in the declaration of the Communist Party at the conference:

"It is thus clear that the convention of the Farmer-Labor Party must apply to the new 'Non-Partisan Labor League' in order to achieve the fullest co-operation between these two most inspiring wings of a political mass movement of the working class in our times."

"We tell the trade unions that are supporting Roosevelt: We do not agree with them but least show them how to organize your own forces independently in order to fight for the demands of the labor class in the 'Peoples Front' is organizing the reactionaries on the other side."

"Friendly greetings, sent to the conference by John Lewis, head of the United Mine Workers' Union, Sidney Hillman, head of the Garment Workers' Union, and David

Not Against Roosevelt

Part of the Russian text on page 23 of the July issue of "Comunist International." The significant paragraph has been translated as follows, and relates to a "Farmer-Labor Party" Conference in Chicago:

"At the conference, the Communist Party clearly stated its own independent point of view:

"We, the Communists, can join such a common front with the workers supporting Roosevelt. By doing this, of course, we do not express our confidence in Roosevelt in any degree. Our position in regard to Roosevelt is clear. We do not cross out a single word from the criticism to which we have subjected Roosevelt. We do not want to take and do not take on ourselves the responsibility for Roosevelt. But we do not want to sever our connection with the organizations in favor of a common front because they follow Roosevelt. We have to a considerable degree common purposes and opinions, among them the aspiration to defeat the reactionary Republican Party and its supporters..."

Dubinsky, head of the International Union of Women's Garment Workers—three of the most important and powerful unions of the progressive wing of the labor movement—testify to the growing support of the movement for a Farmer-Labor Party by the masses."

To Socialism

At the Chicago conference, the report to Moscow further says: "THE REPRESENTATIVE OF THE COMMUNIST PARTY" delivered a speech which has "BECOME A DOCTRINE OF THE FARMER-LABOR MOVEMENT." The Communist spokesman predicted that a Farmer-Labor Party—

"If we start it now... may become ONE OF THE MOST POWERFUL PARTIES IN 1940."

In the same speech, Communist "allegiance" to the Farmer-Labor movement was pledged in the following language, as reported to Moscow: "THE FARMER-LABOR MOVEMENT."

The Communist spokesman predicted that a Farmer-Labor Party—

"If we start it now... may become ONE OF THE MOST POWERFUL PARTIES IN 1940."

"We know that America, whose people is not yet ready for a fight for Socialism, is entirely ripe for a Farmer-Labor Party."

"Such a party does not bring Socialism along, but IT EASES THE DIFFICULTIES FOR A FUTURE PASSING INTO SOCIALISM IN A

REPORTS TO MOSCOW

EARL BROWDER

CONSIDERABLE DEGREE. That is, the reason why we wholeheartedly give our fullest support to the Farmer-Labor Party, even if its program would force only immediate demands, AT THE SAME TIME NOT REJECTING OUR COMMUNISTIC PRINCIPLES. We do not want to say by any means that this program should be more left than it can be..."

"Can the present conference carry out its work successfully WITH A SMALL GROUP OF COMMUNISTS AMONG THEM, with the conviction that it is on the right road to success?"

"IT IS ENOUGH TO REMEMBER THE RECENT OCCURRENCES IN FRANCE AND SPAIN, where the Peoples Front, INCLUDING THE COMMUNISTS, saved these countries from the regime of Hitler..."

"For this declaration by the Communist Party," adds the report to Moscow, "the question of the participation of the Communists in the future Farmer-Labor Party was not taken up at the conference."

The Communists took an active part in all decisions and discussions.

"The question has been decided, to the effect that it is the duty of the COMMUNIST PARTY in the united national Farmer-Labor Party of the United States, and to include in the PARTY BEING ONE OF THE DECIDING FACTORS, although it is a minority..."

"Due to such developments the Communists are PERSEVERING STRONGER AND DEEPER THAN EVER INTO THE AMERICAN MASSES and are beginning to play AN INCREASINGLY IMPORTANT PART IN THE ENTIRE POLITICAL LIFE OF THE COUNTRY."

"None in the report sent to Moscow, and published there in Russian, is the Communist Party severely committed, in no many words, to support Roosevelt openly."

The point emphasized, and Continued on Page 5, Column 1

White House Statement:

President Disowns 'Alien Support'

Washington, Sept. 21.—In a sharply worded statement, the White House said Saturday it had learned of a "planned attempt, led by a certain notorious newspaper owner" to give the impression that President Roosevelt "passively accepts the support of alien organizations hostile to the American form of government."

The statement, issued by Stephen T. Early, a presidential secretary, directly denied that this was so. The newspaper owner was not named. The text follows:

"My attention has been called to a planned attempt led by a certain notorious newspaper owner to make it appear that the President passively accepts the support of alien organizations hostile to the American form of government."

"Such articles are conceived in malice and born of political spite. They are deliberately framed to give a false impression—in other words to 'frame' the American people."

"The President does not want and does not welcome the vote or support of any individual or group taking orders from alien sources."

"This simple fact is, of course, obvious."

"The American people will not permit their attention to be diverted from real issues to false issues which are patently honorable, decent citizen would purposely inject into American affairs."

Early signed the statement. He declined to amplify it, except to say the article about which he had been informed had not, as yet, appeared in print.

U.S. INDICTS SIX IN LABOR QUIZ

Washington, Sept. 21 (AP)—Six officials of the Railway Audit and Inspection company were indicted today by a Federal grand jury for their refusal to testify August 21 before the La Follette committee investigating alleged civil liberties violations in labor disputes.

Each official was separately charged with "contumacy" on two counts under a law passed at the end of the second world war. They were accused of failing to appear at the committee's hearing. And, in addition, they were charged with harboring witnesses subpoenaed by the investigators.

Those indicted were W. W. Calkins, W. H. Boone, George James E. Hain and J. C. Hoyer, all of Pittsburgh; L. Douglas Rice, vice president and general manager of the Philadelphia office; and Robert B. Fisher, New York attorney.

Knickerbocker Log:

Ace Writer Hops To Gibraltar

(Editor's Note: Following is the seventh of the war logs sent from the Spanish battlefield by H. R. Knickerbocker, famous touring correspondent of International News Service.)

By H. R. KNICKERBOCKER
International News Service Staff Correspondent

Gibraltar—(INS)—I flew over here to file my interview with General Franco. Three days ago I filed by the Seville radio a message which took over forty-eight hours to arrive. So there is no use trying that any more.

I only took one hour in the air from Seville and our ship worry was whether we could land in Gibraltar. It has no landing field, only a small pole ground. But the pilot of the little Leaper Moth, an ex-aviator and seafarer, was the young Canadian, William Rose, could land on a billiard table.

We came in and landed the rock, my first sign of the Spanish business, made familiar to every American by the insurance advertisements.

It was far more impressive than I had imagined. I now disbelieve my inclination I might have had to believe the British claim that they could disable the rock by air bombing. It would be just as easy to disable a duck by striking him with water.

Refugee Tents

The pole ground was bordered with tents of Spanish refugees. Rose put the plane down and stepped out. It seemed to me, not more than 60 yards. It could not be, we were the first place to land on the rock in two years.

The first immediately swarmed with children, hundreds of them, ragged, poor looking kids, most of them obviously from workers' families. Kids who were sent to Gibraltar to take advantage of British hospitality.

Two young British boys playing officers kindly took us in their car. The frontier formalities were needless I have ever known.

You could not see the harbor port in Gibraltar. This, I was told, is because "Bill" is British, coming under the influence of the army and out of the foreign office.

I had thought there was some kind of Gibraltar, but it is all wrong. The town itself is practically nonexistent. It is today jammed with military, including the headquarters of a police of nationalities.

A German cruiser was at anchor and its sailors were by far the most numerous in the streets.

'Idol of Whites'

They adulated with such a frenzied clicking of heels and such pained affiance that I was carried back to the atmosphere of Berlin. It reminded me also of the contrast General Franco had presented.

The general is undoubtedly going to be the dictator of military Spain and of the white army. He is the Spanish ideal of a military man.

Yet he had not seemed military to me at all. This was because I had always associated the idea of 'military' with Prussia.

The Prussian officer carries over his 'command' from the drill ground to ordinary life, and his talk is clipped and harsh. General Franco has an agreeable, rounded voice. He has the face and particularly the eye of an artist. His manners are those of the drawing room, not of the drill ground.

Nevertheless I had been impressed by one typically military pose of officers: in Prussia, officers of defense we entered we were searched, politely and unobtrusively, by particularly as we were in the company of Captain Boiss. But nevertheless searched and then caught.

My companion, photographer even had to open up his camera to prove they considered us 'innocent'.

Door Ajar!

Then all during the interview which lasted an hour, I noticed that the door leading into the next room was ajar. In the next room were Franco's bodyguards.

The door had a mirror in it and one of the guards sat in such a position that he could see us in the mirror. Whenever I glanced that way the guard looked down at the wall he was fingering, but there was not a second of the time that he was not aware of every move I made.

All that seemed very far away to Gibraltar. We went up to the Rock Hotel and one Mr. Percival Phillips of the Daily Telegraph, with whom I had done business in Abyssinia and we agreed on certain conditions in the agreement.

We flew back to Seville at dawn. During the flight, the Rock is a vision to remember. Two white-jacketed soldiers were seen in the air which had been swept in from Harding's lodge and other points.

Pope Urges Crusade Against Reds

(Picture from International News, Photograph Bureau)

This photograph of Pope Pius, made at the Castel Gandolfo, his summer home, was made as the Pontiff fled with the world to aid in checking the mad Red forces of the universe. Speaking to 500 refugees from scenes of Spain's civil war, and to far corners of the earth over the Vatican radio, Pope Pius declared Communism menaces civilization. He urged a defiant stand against the "program of hate, subversion and destruction-Communism."

WELFARE FUND PLANS BEGUN

Robert Cutler, general chairman of the United States Community Fund Campaign, today began the task of mobilizing an army of 20,000 volunteers who will give their time as well as their money to the great January drive.

Cutler said the campaign "for common needs" will comprise four major divisions as in the past: Industry, Trade, Finance, Special Gifts. Divisions (clothing, property, and transportation) the suburban areas and hotels.

Backing up the work of these divisions will be a voluntary committee, a speakers bureau and an executive committee. An issue group will be headed by business or professional men who will volunteer their time.

As he set about forming his huge organization, Cutler pointed out that the hundreds of hospitals, schools, and social agencies which the Community Fund of Boston and participating in the Community Fund Campaign serve some 100,000 people annually in 42 cities and towns.

—VOTE AMERICAN—

HEARST LAUDED ON LAW STAND

St. Louis, Mo., Sept. 21.—(Continued from page 1.)

The law itself is practically nonexistent. It is today jammed with military, including the headquarters of a police of nationalities.

A German cruiser was at anchor and its sailors were by far the most numerous in the streets.

Yet he had not seemed military to me at all. This was because I had always associated the idea of 'military' with Prussia.

JAPAN TO SEND LARGER FORCE INTO CHINA

Tokyo, Sept. 21 (AP)—A special-organized landing party will be sent to China, Japanese naval officials announced today, to protect Japanese residents and interests.

The decision was reached at a conference of high authorities presided over by Admiral Otsu Nagao, minister of the navy.

The conference took the position, the Daimi (Japanese) News Agency reported, that the Nanking government apparently was unable to prevent anti-Japanese incidents in China.

"Japanese naval authorities consider it necessary and inevitable to resort to measures of self-defense," the official announcement declared.

Reports from Shanghai asserted two Japanese destroyers were taking a strong detachment of marines to Hankow, where a Japanese consular policeman was killed Saturday.

"The marines were declared to have been formed as a permanent patrol."

The navy office communiqué recounted a year-long list of killings and injuries declared to have been suffered by the Japanese in China and added:

"Anti-Japanese terrorism has extended across the whole Chinese continent and is becoming rampant."

One of the highest authorities declared the present Sino-Japanese crisis "compels Japan to take a strong stand in order to check the 'dangerous' anti-Japanese terrorism in China."

However, he said, the ultimate objective of Japan's policy are to "strengthen the intimate and friendly relations between the two countries."

800 BEAUTIFUL PATTERNS FOR 1-20th OF A CENT EACH

IN THE WONDER PACKAGE

of Hand Embroidery Designs Containing Wide Choice of Patterns!

Think of it! More than 800 beautiful Hand Embroidered Designs in the Wonder Package—among them a wide choice of quilt designs—for a twentieth of a cent each! And that is not all.

Wonder Package Patterns are transferred by that sensational new process that does away with hot irons, trouble, failures! Wonder Patterns are transferred under the cold process. Only a tablespoon is needed. You simply dampen the reverse of the Pattern Sheet, transfer the Pattern by rubbing evenly with the bowl of the spoon!

And they last a lifetime! Because of this patented cold process, Wonder Patterns can be used over and over again! Years of pleasure are hidden in that Wonder Package—years of pleasure and utility!

THE WONDER PACKAGE and How to Get It!

You don't have to subscribe in the paper—simply clip the coupon and bring it to our office—with 39¢—or mail it in with 49¢ to cover the extra 10¢ postage. Then you get the rightly named Wonder Package—and here's what you will find it contains:

Over 350 of the very latest Embroidery Patterns, no two alike—over 475 initials, in various styles and sizes—all on twelve (12) large sheets, 24x36 inches in size—together with simple and highly practical instructions for use—no tedious assortment in wide range, so beautiful in design, that no other Embroidery collection can even be compared to it. How you will enjoy the spare time work! Because the Wonder Package brings brand new pleasure to the art, many women are embroidering today who had never known its fascinations.

Now clip the coupon—use it today. Either call at our office, or mail it in. You'll thank us for urging you to do this.

CLIP AND USE THIS HANDY COUPON

Sally Mosser Makes Debut At Luncheon

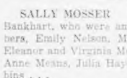

By BETTY ALDEN

GOLF HAS CREPT into a prominent position in today's news of the feminine world. . . . Down in Summit, N. J., leading women golfers from this country and England teed off for the first round of match play in the Women's National Golf Tournament, this afternoon. . . . while Sally Mosser, who was junior girls' state champion in Massachusetts last year, was making her social bow at a luncheon at the Blue Buns Country Club. . . .

Miss Mosser is the daughter of Mr. and Mrs. Karl E. Mosser of Waban and she and her mother greeted about eighty guests before sitting down in luncheon. . . .

The debutante wore a dark green crepe dress with a deep band of green velvet around the neck and hem, and a trimmed hat of soft green suede. . . . Mrs. Mosser's dress and hat were dark black, set off by a corsage of white gardenias. . . .

The girls who assisted as hostesses had corsages of bright colored roses while the other guests each found bouquets of gardenias at their places. . . .

SALLY MOSSER
Bankrupt, who were among the hostesses. . . . also Betty Alden, Emily Nelson, Mary Richardson, Marian L. Emerson, Eleanor and Virginia Moros, Cynthia Harrison, Virginia Vogel, Anne Means, Julia Hayden, Harriet Miller and Virginia Stubbs. . . .

Mary Pickering Older, Priscilla Thorndike and Sally Seuder were among the post debs who accepted their bids to luncheon. . . . Places were also set for Deborah Sprague, Joan Davis, Edith Chase, Marguerite Remick, Dorothy Oler, who was hostess to the debutante crowd at her luncheon at the Ritz last Saturday, Mary Richardson, Betty Allen, Janet McNeil, Betty Shrigley, Sue Carl, Eleanor Coolidge, Rosaline Rogers, Betty Bagdonovich and Nancy and Penelope Hill. . . .

Miss Mosser graduated from Miss May's School last June and spent most of the summer in Kennebunkport, Maine. . . .

Merry Time at Essex County Club

CHAUFFEURS WERE TOLD not to call for their passengers until 2 a. m., as North Shore society of all ages arrived at the Essex County Club in Manchester Saturday evening, and proceeded to get into just the proper mood to make the most of the club's last day of the season. . . .

A great many had dinner parties at the long candle lighted tables in the dining rooms. . . . and they lingered and talked and coffee until the orchestra arrived and all the tables were removed to make room for dancing. . . .

At about 11 o'clock the club was thronged with latecomers. . . . most of whom had started the evening at one of the various private dinner parties along the shore. . . .

Betty McKean was one of these. . . . arriving just as Eleanor Coolidge and her cousin, Harriet Cole, stepped out of their cars to join the crowd who had attended their coming out tea and dinner. . . . Betty wore a debutante's dream-dress of pale yellow chiffon. . . . with a fitted bodice, and skirt flaring into a very full hemline outlined with petal-like folds. . . . with it she wore a hip length cape of fluffy white maribou. . . .

Breezy Coolidge pinned her lavender corsage on the lapel of her scarlet velvet wrap and Harriet wore the white and silver taffeta in which she escorted to society one afternoon. . . . The Nelson Adrians had a party which included Caroline Hummel of Marblehead. . . . and Mr. and Mrs. R. Lester Sewall had the latter's sister, Louise Stevens, with them. . . . Mrs. Sewall's scarlet silk gown was enlivened by a velvet and mink cape and her sister wore quite a demure gown of black chiffon with long sleeves. . . .

Renee Schanz, who lauls from Park avenue in the winter, was in the highest of spirits as she danced two steps with one stag and then changed partners for another minute or two, and so on. . . . Over her fitted black silk dress she wore a brief white tulle jacket with big puff sleeves. . . .

Barbara Brewer, who just topped Renee in the contest for prettiest girl on the North Shore, was another sporting a white maribou cape. . . . here making a striking ensemble with a black chiffon gown trimmed with a lavender red and green. . . . Also there were the Reginald Fosters, Jr. Bumpy Jones, Charles Mitchell, and Nancy Cochrane in a sweeping gown of cream taffeta edged with black ruching and topped with a crimson taffeta cape. . . .

Notables at Noble-Means Wedding

IT WAS SO SUNNY and pleasant on the spreading lawn of Christ Church after the brief ceremony which made Susan Means the bride of Charles Noble, that many of the guests lingered for a long while chatting and visiting, and giving the bride plenty of time to get home and all composed before she stood in line to receive them. . . .

Mrs. J. A. Lowell Blake in a trim navy blue silk dress and hat with a black Persian lamb wrap, to greet Catherine and Cornelia Pentecost, both of whom wore dark suits with silver fox scarves. . . . and Gwendolyn Livermore, who looked very royal in a melon colored tulle coat and hat, was also in the group which passed outside the church for a little while. . . . Connie Turner, just back from Europe, was the mistress of chic in a Dubounet suit with matching accessories. . . .

Mrs. John Noble, Jr. (Barbara Warner), combined pale blue and Dubounet in her outfit and her mother-in-law was a cheerful figure in red chiffon with a matching velvet jacket. . . . Mrs. Robert Means' plum crepe gown had a silver maribou top and she carried a sable scarf. . . . Her debutante daughter, Anne, was the only attendant and looked like a dainty sleep-dress in a deep coral taffeta trimmed with ermine-rose bands of wine velvet to match her velvet hat. . . .

Knox-Mason Ceremony

Mrs. Albert Lincoln Mason of Brookline, N. Y., and Stonington, Conn., is announcing the wedding of her daughter, Miss Anne Frothingham Mason, to David Douglas Knox, son of Mr. and Mrs. Herbert H. Knox, also of Brookline. . . . The Rev. Charles X. Hutchinson, officiant.

JUNIOR BIRDMEN OF AMERICA

DEVOTED TO THE INTEREST OF THE YOUTH OF THE AMERICAS IN AVIATION
TODAY'S PILOT OF MODELS
—TOMORROW'S MODEL
PILOTS

Plans for a full program for fall and winter by both national headquarters and the Boston wing office for Junior Birdmen are underway. They will provide new opportunities for all members to gain high honors and the chance for new members to get into the full swing of activities for the organization.

The contest for New England boys and girls will include a series of six indoor model plane flying meets, one each meeting (on the third Saturday) starting October 17, and the wing indoor championship contest.

Cash prizes will be awarded to winners of the local meets which will be held in South Amherst, Boston. A trip to San Antonio, Tex., will be the chief prize for the winner of the wing tournament, tentatively set for November 27, the day after Thanksgiving. In addition he will receive the wing trophy. There have been two winners in succession and with 166 points competing already, expect to win it for the third time on October 1.

Competing against them are the following squadrons with their commanders in the order named: Devil Dogs of Charleston, Francis Tackler, Lucky Seven Model Club, Livermore Falls, Me., "Bob" Bartlett, Thrash Flight Squadron, Lisbon Falls, Me., William L. Wilbur, Pine Tree Dare Devils, Portland, Me., Hugh Cole, Cloud Busters of Roxbury, Leonard Wilbush, and Flying Stamp Squadron, South Portland, Me., Josiah Cole.

Junior Birdmen of America (Membership open to all boys and girls 10 to 21)
I wish to join the Junior Birdmen of America. I enclose a dime (will waqap) for my gold wings and other membership materials.

New Course
Of Lectures
Planned

Following their custom of broadening the field of child guidance beyond the doors of their Guidance Center, the trustees of the Judge Baker Guidance Center have announced the date for a new course of lectures which will cover all phases of "Guiding the Adolescent into Adulthood."

Five of this year's lectures will be given on consecutive Tuesday mornings at the Women's Republican Club, with the final lecture at the Copley-Plaza on Thursday, November 19.

On Tuesday, October 13, Dr. T. Wingate Todd, professor of anatomy at Western Reserve University and chairman of Rush Foundation in Cleveland, will discuss "The Physical Background of Adolescent Physicisms."

The next Tuesday, October 20, Dr. Ira S. Wile of New York will lecture on "The Adolescent's Adjustment to the Adult Group." Dr. Percy G. Kammer, headmaster of the Avon Old Farm School, will speak on "The Adolescent's Adjustment to His Own Age Group."

On Tuesday, November 3, Dr. Augusta F. Bonner, director of the Judge Baker Guidance Center, will discuss "The Adolescent's Adjustment to Adulthood." "Adolescent Adjustment and Career" will be Dr. Elliot Dunlap Smith's subject at the last lecture to be held at the Women's Republican Club on Tuesday, November 10. Dr. Smith is master of Saybrook College, Yale University, and professor of industrial relations at Yale.

The final lecture in the series will be given at 11 a. m. Thursday, November 19, at the Copley-Plaza. Professor Edward R. Lindeman, director of the New York School of Social Work, will discuss "The Adolescent's Grouping for a Philosophy of Life."

Members of the Junior Birdmen Association will be interested to learn of the organization of a Circle for the purpose of studying the various angles of Communism. The group will hold its meetings at Mt. St. Joseph Academy in Brighton under the direction of Mrs. Dorothy Sullivan of Newton, graduate of Regis College, Class of 1931. The date of the first meeting has not yet been set.

Mrs. Edward C. Donnelly and her

Form Guild for Study
Of Psychology

By DOROTHY W. CRANNELL

TO THOSE who are particularly interested in the study of the various branches of philosophy and to those, especially, who received the privileges and benefits last Spring, of the series of free lectures in psychology, offered by the eminent Dr. Albert G. de Quevedo, this piece of news should prove most gratifying.

A group of young men and women are now forming what is to be known as the Albert de Quevedo Guild, named in honor of the man whose principles and teachings it will uphold. The purpose of the Guild is to carry on his work.

Dr. de Quevedo graduated from Santa Clara University, Los Angeles, and taught for several years at Gonzaga College in Washington. He had delivered lectures in many principal cities of the United States and at the present time, he is in Detroit, giving the same series of lectures which he gave in Boston during the months of May and June of this year.

The officers of the club are: John G. McCarg, president; Miss Mary K. Cusick, vice-president; Miss Ellen L. Flynn, secretary; Miss Kathleen Donahue, director of publicity. Announcement of the meetings will be made at a later date.

Members of the Junior Birdmen Association will be interested to learn of the organization of a Circle for the purpose of studying the various angles of Communism. The group will hold its meetings at Mt. St. Joseph Academy in Brighton under the direction of Mrs. Dorothy Sullivan of Newton, graduate of Regis College, Class of 1931. The date of the first meeting has not yet been set.

Mrs. Edward C. Donnelly and her

daughter, Miss Catherine Donnelly of Commonwealth avenue, are in New York city for a few days, registered at the Hotel St. Regis.

Mrs. W. Leonard Shearer of the Paine Furniture Company, who has been living at Chestnut Hill, has just moved to a large apartment in Beacon street, at the corner of Amory street, Roxbury.

Girls Return To College

Many Boston girls are contemplating plans to return to their respective colleges. Miss Marjorie Quigley, daughter of Dr. and Mrs. William Quigley of Charlestown, returns to Wellesley for her senior year. Miss Quigley with her parents has just returned from West Haverhill on the Cape where she enjoyed the summer months. She is an active member of the A. C. of Clubs.

Miss Mary Fitzgerald of Chestnut Hill, will leave shortly for Trinity College, Washington, to complete her final year. Miss Fitzgerald is a member of the Junior Philomathean Club.

Miss Mary Hannan, daughter of Mr. and Mrs. William J. Hannan of Newton, is enrolled at New Rochelle College, New York. Her father is a member of the board of directors of the Philomathean Club and is active in many other philanthropic societies.

Miss Safford attended the Bromfield school and Smith College. Mr. Townsend, who is the son of Mr. and Mrs. John M. Townsend of Falmouth Heights, Beaver Falls, Pa., graduated from Lafayette College and is a member of the Zeta Phi Club of New York and the Pittsburgh Athletic Association.

Miss Safford
Is Newton
Bride

The Rev. Dr. Royce Miller officiated at the marriage of Miss Nancy Safford to Edward Myers Townsend, Saturday afternoon, in the West Newton house of the bride's parents, Mr. and Mrs. Arthur T. Safford. The reception was held at the Blue Buns Country Club.

Miss Safford wore a picturesque gown of old ivory satin, made on intricate lines with a high Medici collar and a full court train. Her veil of Alençon was caught to a cap of lace and orange blossoms. A bouquet of gardenias and lilacs delicately completed the costume. Mrs. Albert G. de Quevedo, who was mistress of honor, wore a gown of periwinkle blue velvet made with a mixture new-outfitted with point embroidery and a hat of the same velvet trimmed with gold.

The maid of honor, Miss Margaret B. Turner of Worcester, wore a gown of aspenwood red made like that of the mistress of honor, and a matching hat. They carried arm bouquets of chrysanthemums.

On Vincent L. Bra-Kel of Philadelphia was Mr. Townsend's best man and there were no ushers. At the reception Mrs. Safford, mother of the bride, wore Irish red chiffon velvet with brown accents, a matching hat and a corsage of pink orchids. Mrs. Townsend was in royal blue crepe trimmed with lace of the same color and accents. Her set was Irish red and corsage of white orchids.

Miss Safford attended the Bromfield school and Smith College. Mr. Townsend, who is the son of Mr. and Mrs. John M. Townsend of Falmouth Heights, Beaver Falls, Pa., graduated from Lafayette College and is a member of the Zeta Phi Club of New York and the Pittsburgh Athletic Association.

7 REASONS WHY Puck—The Comic Weekly is a logical Basic Advertising Medium

- 1 The Broadest Basis in Advertising—Puck—The Comic Weekly is read by the widest possible cross-section of the population. Puck—The Comic Weekly is the only publication that reaches the entire family.
- 2 Mediums in Motion—Puck—The Comic Weekly is the only publication that is read by the entire family in motion. It is the only publication that is read by the entire family in motion.
- 3 The Largest Single Medium Whole-Family Circulation—Puck—The Comic Weekly is the only publication that reaches the entire family. It is the only publication that reaches the entire family.
- 4 Low Cost Per Family Reached—A single page advertisement in Puck—The Comic Weekly reaches the entire family for a very low cost. It is the only publication that reaches the entire family for a very low cost.
- 5 Concentration in Best Buying Areas—Puck—The Comic Weekly is read by the entire family in the best buying areas. It is the only publication that reaches the entire family in the best buying areas.
- 6 One Point—One Maximum—Puck—The Comic Weekly is the only publication that reaches the entire family for a very low cost. It is the only publication that reaches the entire family for a very low cost.
- 7 Maximum Visibility—Minimum Competition—Puck—The Comic Weekly is the only publication that reaches the entire family for a very low cost. It is the only publication that reaches the entire family for a very low cost.

It's the cast that makes any show a success. It's the cast that draws the crowd. The stronger the cast, the greater the attraction. An All-Star Cast has the strongest pull of all. Henry Irving or E. H. Sothern playing in Hamlet meant box office successes; Caruso in Pagliacci assured a packed house from the pit to the gallery. There is magnetism in the stars.

Jiggs & Maggie, Popeye, Tillie, Skippy, the Katzenjammer Kids, Flash Gordon, Barney Google, Toots & Casper, the Little King and Company are the original and only All-Star Cast in "comics".

Check the readership of Puck—The Comic Weekly in New York City or San Francisco... in Millis, Massachusetts or Milledgeville, Georgia. Everywhere it goes, this same All-Star Cast holds the rapt attention of men, women and children—young and old alike.

In nearly six million homes Puck—The Comic Weekly is read by the whole family. (A recent survey again confirms this.) Its intensely human portrayal of the basic themes of life, literature and drama—laughs, loves, thrills and tears—have held the interest of the nation for three generations. This

is the longest run ever known in the entire field of entertainment.

Full page advertisements in Puck—The Comic Weekly capture the same degree of interest developed editorially by the All-Star Cast. Experienced advertisers are successfully using the same editorial technique to sell their products to this responsive family group.

Remember, it's the cast that makes the comics. The one and only All-Star Cast is in Puck—The Comic Weekly. It's your surest guarantee of star pulling power.

We would welcome the opportunity to show you what the All-Star Cast has done for other advertisers. Please phone COLUMBUS 5-2642 New York or Superior 6820 Chicago.

4500 SEE CHARITY GOLF CARNIVAL

AUSTEN LAKE

Perfect Golf Party
Swells Hope Chest
For Christmas Poor

THE MOST FASCINATING TRAIL of this carnival, one of golf which attracts so much expensive advertising and occupies so many man-hours and emotional power, is the kind of presence that success can play. Thus the manner in which the professional pair, Lawson Little and Jimmy Thomson, played in defeating the amateur pair, Francis Ouimet and Jesse Guilford, over the heads and pastures of Belmont Country Club, reduced golf to the nursery simplicity of a Minor League game.

That is the most pernicious feature about golf as it is played by the Littles, Thomsons, Ouimets and Guilfords, which has the tendency to kid the optimistic sufferers into thinking that there is always hope for them, though the little gods of the treacherous game have long ago decided that their case is incurable.

The foursome best-ball match was preceded by a technical demonstration in which Horton Smith, the toll, smiling and unflinching, lectured on the correct body conditions to tee the ball, on its extreme center, on a sand, and on a ruddy complexioned youth, tall like a line-drawing, gave the most convincing demonstration of the kind of speaker, lecturing on the proper use of the club, with some very fine, but not very original, illustrations.

PERFECT DAY, PERFECT PEOPLE?

LITTLE AND THOMSON LAID OUT their quivers of hand-hammered weapons on the ground, piled little mounds of ammunition within easy reach of the toe of their mallets, and gave a clinical demonstration of shots that wobbled through the haze, fell on and made the people's tongues pop out. Mercifully they flubbed none of their drives into the jam-packed thousands, which were marshalled by traffic stewards with long fishpoles, and police imported from the nearby townships.

CROWD SEES ALL AT SEVENTH

IN THE FOURSOME PLAY, nobody in the gallery, except the referees and caddies, saw all of the action, and the best that anybody could do was to pick a spot in the fringe of the subway jam along the course and wait for the players to pop down, or hope for a glimpse peek at some magnificent recovery from the weeds and deep-tangled w. woods.

FUNDS FOR WINTER'S NEEDY

AND THOUGH I WOULD WISH TO GIVE YOU a more detailed account of the athletic features of the performance, I saw no more than a few fragmentary pieces of it myself. In all my experience with sport crowds, which include some pretty crude, nuttish exhibitions, I would say this one was the chummiest, body-brainer-and-staler strong who ever suffered unadvised inconvenience with good humor.

Because the hotel exceeded ticket-selling facilities, the microphone voices of the Belmont stewards kept pleading bawls appeals to that portion, which is shorter than their dollars for yellow admission badges, and the fence-keepers kept scowling indignantly, flushing delinquents who added the price of a man's back to the two-thirds of a grocer who will trouble out to be home of the most next Christmas Eve.

It was a perfect afternoon on the last day of summer, when Nature heeled with generous spectators to fill empty stomachs and to warm chilled bones in the heart of next winter. It will serve to make that heart a little brighter for less privileged people.

American Basket Fund Is Boosted by Generous Stars

BOSTON AMERICAN SPORTS

NEW ENGLAND'S GREATEST EVENING NEWSPAPER

BOSTON, MONDAY, SEPTEMBER 21, 1933

HERMAN SPAIN JIMMY THOMSON LAWSON LITTLE JESSE GUILFORD FRANCIS OUMET
PRINCIPALS in the first annual New England Golf Carnival at Belmont Country Club, which, run for the benefit of the Boston Evening American Christmas Basket Fund, set a new modern day gallery record of 4500 spectators. From left to right are Herman Spain, chief marshal, Jimmy Thomson, Lawson Little, Jesse Guilford, Francis Ouimet, President-Elect E. H. Badger of the M. G. A., referee, and Harold Pierce of the Country Club, treasurer of the U. S. G. A.

Little, Thomson Top Local Pair

By WALTER KILEY

Golfing history was written at Belmont Country Club as the first annual New England Golf Carnival, an event sponsored solely for the benefit of the Boston Evening American Christmas Basket Fund, ended, a complete and smashing success.

All Eastern attendance records for the past 15 years of tournament and exhibition play were obliterated as a gallery of more than 4500 spectators stormed after the famous line-up who so generously donated their services to bolster the charity fund.

It was of small moment, in the heat of the brilliant display of professional prowess, that Lawson Little and Jimmy Thomson, mighty professional slingers, routed out Francis Ouimet and Jesse Guilford, 6 and 5, worst defeat the Presidents ever suffered in their 22 years of fast bow, fast play.

There was no disgrace involved for Little and Thomson, neither of whom ever saw Belmont Country Club before.

It was a day of firsts for Little and Thomson, who had never before won a tournament, and who had never before won a tournament, and who had never before won a tournament.

Only Johnny Goodman was almost a minute before, being unavoidably detained in New York, where one of the principals of the Boston Evening American was at the time.

Huge Crowd

Ouimet stated it was the largest crowd he had seen in golf since last summer day in 1920 when he and Guilford played Harry Vardon and Ted Ray before more than 10,000 spectators.

Little claimed it was bigger by far than attended the final of the National Amateur at Garden City, where he won the title in 1928 and past championship finals at Quaker.

Freddie Corcoran of the M. G. A., whose going interests carry him from one major championship to the other, raised the gallery as the second biggest in New England history.

And all were highly pleased at the success attained and without exception promised to return each year and following seasons if the Boston Evening American were up to the carnival, an annual feature.

Golfers' Cards

Thomson 5 1 1 1 1 1 1 1 1 1
Little 4 4 4 4 4 4 4 4 4 4
Ouimet 5 5 5 5 5 5 5 5 5 5
Guilford 5 5 5 5 5 5 5 5 5 5

Thomson 4 5 5 5 5 5 5 5 5 5
Little 4 4 4 4 4 4 4 4 4 4
Ouimet 5 5 5 5 5 5 5 5 5 5
Guilford 5 5 5 5 5 5 5 5 5 5

Recent rain made it a long golf course year, and it was little roll to drivers.

But Thomson, a real long hitter of a golf ball in the world, more than lived up to the predictions.

He was conveniently out in 10 yards over Little, no man without himself. And likewise about of Ouimet and Guilford.

He converted for a 315 yard drive on the long fifth, almost to the top of the drop. Perhaps the most occasional drive of all was Thomson's 115-yard effort on the 4-10-10, a water hole.

Lawson was the courageous hitters who were the most dangerous of the tournament, and who were the most dangerous of the tournament.

Little, Thomson, and Thomson were the most dangerous of the tournament, and who were the most dangerous of the tournament.

Both Little and Thomson used iron on the 20-yard 12th hole. Both reached home against a stiff wind on their second to the 21st.

The 12th hole was a real test for the 21st hole, which was a real test for the 21st hole.

And while Thomson failed in his effort to drive the second green, he got off a magnificent shot which without the handicap of wind might have been successful.

The two professionals played to perfection. Thomson was a one shot with a birdie 17 on the 18th hole. He took the lead with a 6 per three and then Guilford won the 20-yard fourth with a birdie four, which, incidentally, was the only hole his team won all day.

Little stepped into the picture with a birdie three on the 15th, making a 12-footer, and they made the turn three up when Thomson

Fright in Flight

Five Thousand Feet Over Jagged Mountain Tops When Suddenly---

BY FLOYD GIBBONS

IT WAS A FLYING

these people were off on a flying

MAJOR JOSEPH D. MURRAY'S MOUNTAIN TOPS

The major's story, he said, was that the first time he saw the mountain tops, he was in a plane. He was flying over the mountain tops when he saw the first one. He was flying over the mountain tops when he saw the first one.

Major Murray was not a fool. He was merely accompanying his friend. They were to return the next day.

FLOYD GIBBONS was merely accompanying his friend. They were to return the next day.

N. E. INDUSTRY

Council
PLANS TO AID
Growth

By HUGH E. BRADSHAW

The highlight of the recent quarterly meeting of the New England Council was the outlining of a comprehensive plan for industrial research and new industry development.

N. E. Peterson, economist of the First National Bank and chairman of the Council's Planning and Research committee, presented the plan after declaring the section faces one of the most critical periods in its history.

Mr. Peterson said that since the development of new industries and products in New England had the capacity to increase the economic structure made by the cost of the business of manufacturing. As a consequence, the Council's research committee has been studying the problem of developing a new point program embracing industrial research methods with the Council as the bulk of the activity. At the same time, it is to be a new point program embracing industrial research methods with the Council as the bulk of the activity. At the same time, it is to be a new point program embracing industrial research methods with the Council as the bulk of the activity.

On Saturday we passed some new money on the market. Which was noteworthy because the money market had been previously depressed. The source of the new money was the Federal Reserve Bank of New York, which had been authorized to issue new money to the public. This was a significant move, as it indicated that the Federal Reserve was willing to increase the money supply to stimulate the economy.

Notwithstanding the fact that the money market had been previously depressed, the new money was well received. This was a significant move, as it indicated that the Federal Reserve was willing to increase the money supply to stimulate the economy. The new money was well received, and it was expected that it would help to stimulate the economy and increase industrial production.

The industrial sector has been hit hard by the current economic conditions. Many factories have closed, and unemployment is high. However, there is hope on the horizon. The new money from the Federal Reserve is expected to help stimulate the economy and increase industrial production. This is a positive sign for the future of the industrial sector.

It is important to note that the new money is not just a one-time infusion. It is part of a larger program to support the economy. The Federal Reserve is committed to keeping the money supply stable and to supporting the economy in the long run.

The industrial sector is facing a difficult time, but there is hope. The new money from the Federal Reserve is expected to help stimulate the economy and increase industrial production. This is a positive sign for the future of the industrial sector.

The industrial sector is facing a difficult time, but there is hope. The new money from the Federal Reserve is expected to help stimulate the economy and increase industrial production. This is a positive sign for the future of the industrial sector.
